Welcome Patrick!

Yes, Pretzel has foaled and what a magnificent Colt. We are wrapped with this colt for obvious reasons. This is what it's all about for us - a lovely race pedigree, a smashing type and all that colour! His **Mr Prospector** line sire, [Painting Freedom \(USA\)](#) certainly made his mark; and with this colts stunning looks and extremely fancy movement it seems [Pretzel](#) has thrown her stamp too. His colour genetics - although looking similar to Framed In History's - are completely different. Patrick possess' the Dominant White gene. Framed In History has the frame-overo, rabi-cano and sabino genes. See more of Patrick [here](#) and [here](#).

I am really impressed with how this colt has grown out. Not to mention that all who inspected him last season sent a mare to him and this season his book is well on its way.

We only have two Glacial Gold (USA) TB foals left for this coming season. One a guaranteed palomino race foal out of the quality mare [Red Trid](#). The other a guaranteed palomino show Galloway TB foal out of beautiful [Heros Bell](#). Both foals able to be secured in-utero. (click on Buzz's pictures to enlarge)
