E Newsletter April 2013

HOTTEST BREEDING SEASON EVER!!!!....

Issue 22, 2nd April 2013

Both [Glacial Gold](#) and [Profile In Style](#) once again filled their limited books last breeding season. Initially only allowing 15 mares per stallion, we opted to open up an additional five spots per stallion, as per our [Horse deals advertisement](#), due to demand. These spots were quickly snapped up by astute breeders.

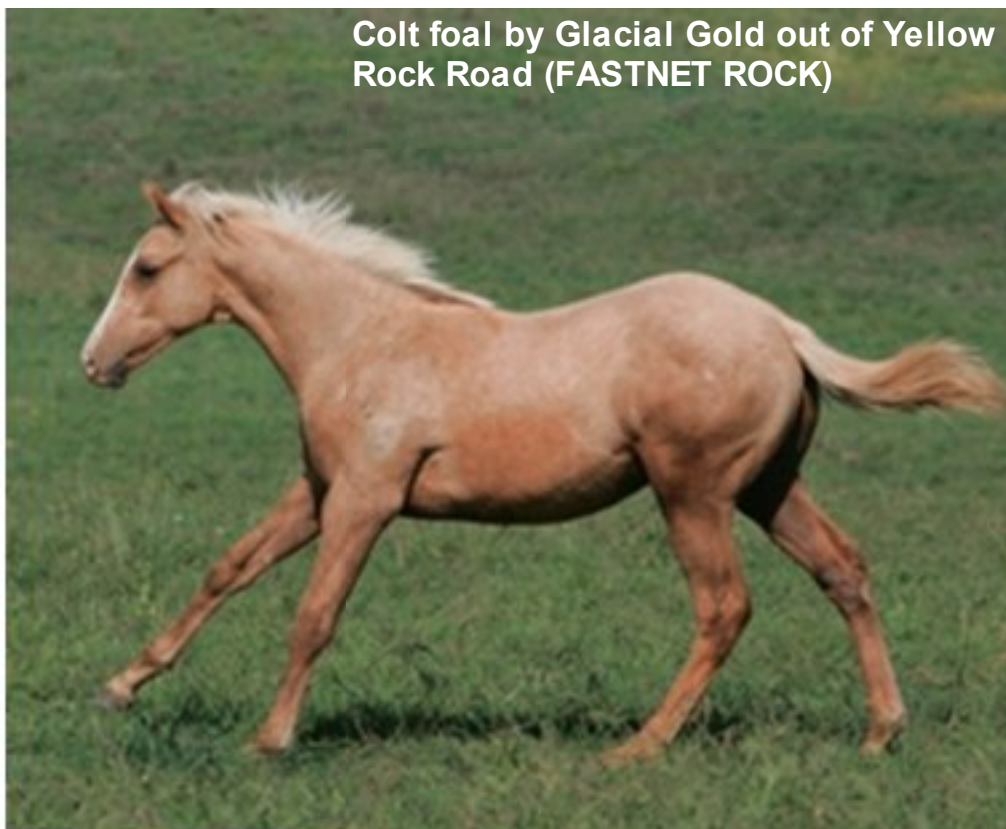

Not only this, Sydney

Polo Club opted to send the same non TB polo mares to Glacial Gold once again this season upon witnessing the cracking type of their GG foals. Sydney Polo club describing his foals as *“athletes that run all day”*.

Profile In Style covered 18 TB mares and 2 non TB. Glacial Gold covered 16 TB mares and 4 non TB.

Please do not delay in booking this coming season as we will be reducing spots by as much as half next season due to our workload as well as to assure our clients foals remain rare and highly prized.

And just to add: ALL MARES ARE IN FOAL—100% FOR 40 MARES. WE ARE LEADERS IN EQUINE REPRODUCTION :-)

Colt foal by Glacial Gold out of Yellow Rock Road (FASTNET ROCK)

Quote worthy of mention

“Opportunities are often missed because they are dressed in overalls and look like work”
- Thomas Edison

[Where are they now?.....](#)

A few pics of the ‘foals’ from last seasons. Enjoy – we sure are :-)

WAY TO GO GRANT

WAY TO GO PETA

Apert form working full

Apart from working full time night shift and working the farm most days; and then crutching or shearing the sheep on Sunday evenings, Grant found time to refurbish a huge old hammermill I bought on ebay. Oatmeal is now home produced to go with the soyabean, linseed and sunflower meal. Hungry anyone?!

JUST FOR LAUGHS

Getting the silo filled for the daily oatmeal feast and someone had to shut the silo lid.

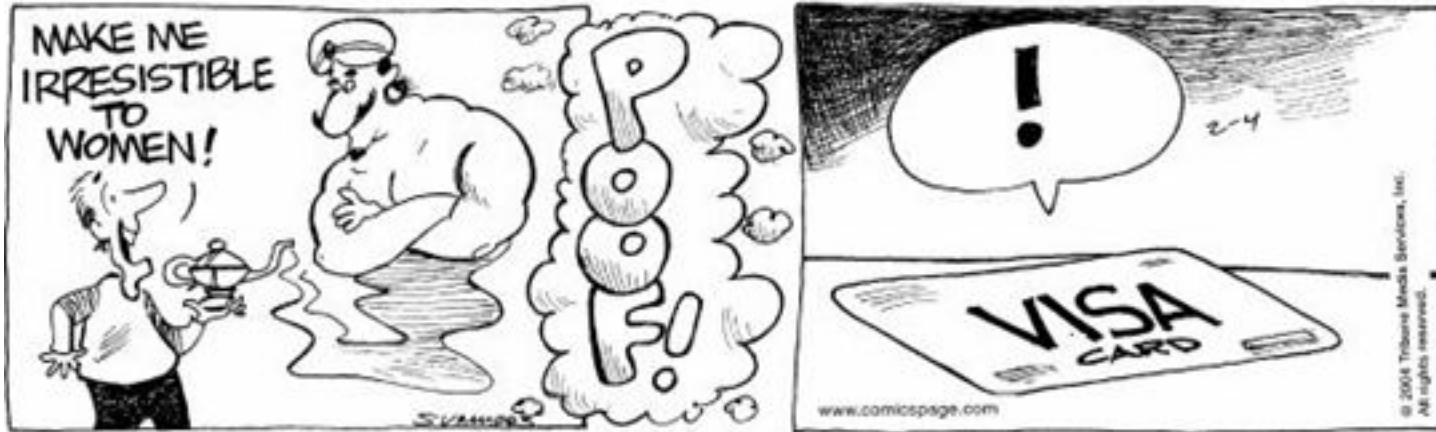

I am usually afraid of heights but decided to take up the challenge from Grant.

So proud of myself I had to share what I believe is the equivalent of jumping out of an aeroplane!!!

Warning to all horses: This is what happens when you try playing with spray bottles on the repro trolley.
