

WINNING COLOURS FARM

Breed To Succeed.

E Newsletter August 2012

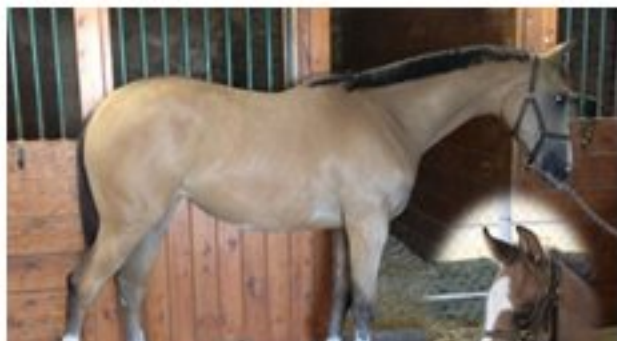

Issue 19, 27th August 2012

Welcome back!

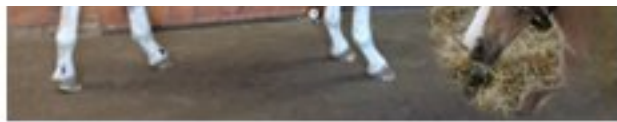

Well, it's been six months since I have sat at the computer to write a Newsletter - boy time flies.

We have been the quiet achievers as things have been full stream ahead here at WINNING COLOURS with the purchase of several new super special mares and **another 300 acre farm purchased for agistment.**

Glacial Gold's offspring in America are cleaning up in the showrings (below) and his first foal of this season out of Pretzel (USA) is nothing short of amazing (right). This filly foal is certainly one I will want to keep. You can see more first pictures of 'Naomi' [here](#).

The boys books are filling very fast and infact are pretty much full so if you haven't made your mare/s known to us yet (should you be wanting your own "bling" baby) don't delay getting in touch so as not to be disappointed.

Happy Breeding Season everyone.

THE NEED TO FEED!!!

I am not good at cooking for humans (sorry family) however our horses sure think I am a pretty good cook! I boil 60 litres of barley in a large vat each day and mix with 20 kilos of sunflower meal (looks like black sand!) and 40 litres of crushed lupins. Add 2 litres of molasses and a litre of oil, then fortify with bone minerals and mix in a large cement mixer. I call this stuff my "Black Gold" or "Dynamite"!

This, along with free access to half ton bales of oaten and pea haylage makes growing out thoroughbred babies pretty easy!

Feeding the barley boiled, and a seed meal in conjunction with the lupins enables us to feed high levels of protein without fear of blowing up the joints - or for a more technical term - developmental orthopaedic disease (DOD) or Osteochondritis dissecans (OCD).

A clients wonderful weanling / just turned yearling born and reared at WCF for only \$60 inc GST per week. (Oh - and size does matter!)

Framed In History's first race coming up next week

Framed In History at Kembla Grange racecourse, NSW.

He is still quite green and with only 8 weeks back in training under his belt (and with him arriving back at the race stables too fat - blame the "Dynamite"), we won't see his full potential this start, however they all have to start somewhere (unless of course your name is Black Caviar!). Wagga Wagga races on the 3rd of September is the place for the maiden race.

Good luck Framed In History and don't forget you can follow Frank on [Facebook](#).
