ROMANTIC RUDY (MOSSMAN x RUDY wedding—RUBIANO). (Rubiano Champion sprinter in USA 7Gr wins.) Another stellar pedigreed mare with colour bonuses. She has four white legs, blaze and lots of coat ticking. In foal to Profile In Style (USA). \$7250

Many more mares listed [here](#) First in, best dressed.

### WHO IS ON THE FRONT COVER OF AUSTRALIA'S FAVOURITE RACING MAGAZINE THIS MONTH??

You better take a look [here!](#)

### PROFILE'S GRACE OF GOD

one is one of only three roan thoroughbreds in existence in the World.

### If you want a solid coloured horse buy one from WCF

Yes, I know it sounds Irish, however if you think about it it makes perfect sense. Our horses are bred for type, performance and temperament first and foremost. When the rare and amazing colour comes then our horses are hopefully in a league of their own. However if the colour doesn't come the horses are still of the highest quality it is only the pricetag that is low. See [here](#)

He's come a long way since being born so premature. I would like to thank Grant and myself for putting in such hard work and money into getting him this far!

Out of Miss Morocco—Rock Of Gibraltar x I Leica (Jeune). He has still a way to go but is on track to longevity.

More pics [here](#) (scroll down).

### GLACIAL GOLD'S OFFSPRING TOP SHELF

Glacial Gold's progeny are very much exceeding expectations thus far. These pictures are evidence of the quality he is throwing.

Pedigree analysis indicates that he is a great match for Northern Dancer mares especially those carrying Danehill - as the Mahmoud daughter Almahmoud sired Danehill's inbred ancestress Natalma, and Glacial Gold's sireline is

that of Mahmoud through his son Milkie - to whom he also carries inbreeding. The proof is in the palomino Thoroughbred filly right!

Mating Glacial Gold to Danehill line mares creates potent "sex balanced" duplications of Mahmoud. Sex balancing of key ancestors figures in the pedigrees of many top class performers and is regarded as having a boosting effect on the inherited genetic factors for class and speed. Inbreeding and linebreeding to Mahmoud especially using his daughters is a strategy that has been responsible for countless stakeswinners, one example being the tremendously successful Northern Dancer / Halo cross (both grandsons of Almahmoud) so mare owners need not be concerned about an over saturation of this blood.

This filly is actually better in the flesh (seriously!) with a huge length of hip. Any wonder Felicity and prominent equine and Magic Millions Veterinarian Brett Warren returned their mare, the dam of this filly, to be covered again by Glacial Gold to produce a full sibling in 2012.

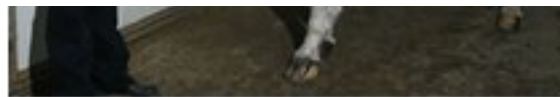

Above is TB filly by Glacial Gold, out of White Lion Fever.

## FRAMED IN HISTORY MAKING HEADLINES

Yes, [Frank](#) has been Syndicated and making headlines while at multiple Group winning Trainer, Paul Murray's stables at Kembala Grange NSW. You can read about him in the Illawarra Mercury [here](#).

He has once again been written about in the City newspapers and even overseas publications!

## A BELATED MERRY XMAS AND HAPPY NEW YEAR!

Pretzel (USA) is in foal to Glacial Gold for an August foal Racing NSW BOBS eligible. Below is everything Pretzel. Sire; Sire's progeny; Pretzels progeny Patrick 10 mths

Better late than never, and I do hope everyone's festive season was all that you wanted it to be.

We would like to thank all our supporters for a great year for WCF. For those around the World that found themselves in numerous disasters, we donated Five and a half thousands dollars to help and we could not have done this without your support. So a big thankYOU :-)

So the end of another year, and now we're well into this one —life goes by so quickly! Our consolation is that we have a bumper foal crop due this coming spring including a foal due out of our imported thoroughbred mare [Pretzel USA](#) by Glacial Gold. Is Australia to have two Cremello colts?? *Stay tuned!* (Oh, and it will be for sale!!!!)
